

system_tasks_init

```
graph LR; A[system_tasks_init] --> B[hal_system_init]; B --> C[bsp_imu_init];
```

The diagram illustrates a sequential flow of three initialization functions. The first function, 'system_tasks_init', is shown in a white box with a black border. A blue arrow points from its right side to the second function, 'hal_system_init', which is also in a white box with a black border. Another blue arrow points from the right side of 'hal_system_init' to the third function, 'bsp_imu_init', which is in a gray box with a black border. The boxes are arranged horizontally and are of equal size.
